Hi Maureen. Is the contract ending July 31 also for Kristi at the Lincoln Park/Cotter site and for Joe McMahan at VB/I-70?

Hi there,

Think you may have a different contract mechanism or may already have gotten notices. But sharing as an FYI just in case. It was a bit of a surprise to me.

Thanks,
Jasmin

Jasmin – The current SRA contract, through which we procure facilitation services nationally, is ending on September 30, 2019. Our current Task Order with Kristi ends in early July.

We are hoping that the new contract negotiations will be completed in early July and we'll be able to set up a new Task Order right away.

I have worked with CPRP in EPA HQ to be sure the Colorado Smelter site is at the front of the queue for processing of new task orders, so we are in good shape on that front.

I am monitoring this closely for the team and will keep you posted as soon as I hear anything about the placement of the new contract.

If the new contract isn't in place in the first two weeks of July, I will find out what, if anything, can be done to have Kristi facilitate the July CAG meeting. - Maureen

Thanks Maureen,

Does this mean the contact ended June 1? and we need to input a new one in order to have a facilitator in July?

Sabrina, Jamie and Jesse- Here is my IGCE and SOW for future facilitation services on the Colorado Smelter site. These documents have been approved by CPRC in EPA HQ for use on the new contract when it is put in place in July or August.

Should you decide you would like to continue to have a professional facilitator available to run CAG and other meetings for our team, please let me know and I'll go over next steps with you, which will entail having your office prepare and fund a PR for submission to CPRC's new Contracting Officer in EPA HQ.

Thanks for your time on this!
